

ATG DIGITAL
— Driving Change —

Invite your visitors with the ATG app!

Why?

Our revolutionary residential estate access control app relieves traffic congestion at the gate and speeds up the resident to guest process. It allows you to pre-register your guest at the click of a finger with visit categories, visit limitations, visits allowed, and much more!

How does it work?

Once all residents' mobile numbers are securely added to the app's backend, you will immediately gain access to your visitor app! All you need to do is download it from any apple or google play store and login via your mobile number, select the Visitors button and click the plus sign, then fill in all the details of your expected guest!

-  QR Code, licence or ID scanning
-  Safeguard against false visitor information
-  Pre-register visitors for the day they arrive
-  Receive instant notifications on visitor arrivals
-  Track time spent on premises
-  Flag blocked vehicles or persons for "no entry"
-  Set time limitations or amount of visits allowed
-  User-friendly experience
